Cllr Gardner summarised the quotes that had been considered by the Play Area Equipment Project Sub-Committee:  The Company C quote was more expensive at £33,500 but the items were made of hardwood and an 18-year guarantee was included in the quote.  The Company B quote of £23,687.00 included items made of softwood with an additional guarantee subject to inspection on an annual basis at extra cost. Cllr Gardner indicated that he would ask Company B to consider extending the warranty to match Company C without an annual warranty charge and if damage to the timber from strimming etc., would to affect this.  It was also noted that Company C quotation was in excess of the Procurement Act 2023 requirement to publish information about opportunities, contracts and awards, over certain value thresholds e.g. £30,000 on Contracts Finder (CFS). The Clerk was asked to investigate the Public Contract Requirements noting that these would be updated by new legislation in early 2025.  It was noted that these quotes did not include removal of old equipment or skip hire.</p> <p>iii. <b>Site Clearance of Existing Equipment</b>  Cllr Gardner stated that getting quotations may be quite difficult and volunteered to carry out the work on a voluntary basis if the cost of a skip and lorry load of top soil or other materials were paid for by the Parish Council.  In view of the additional information that was requested, it was unanimously resolved that the Item be considered at the next meeting</p>	<p>Cllr Gardner</p> <p>Clerk</p>

### Item 2 - Comments submitted to Highways WNC with comments from WNC at each item

40 and 50 mph Speed Limit Proposal for Roman Road, Nobottle - Reference: P2038

In response to the above, please find the comments from Bringtons Parish Councillors as follows:

1. Why leave a section of national speed limit for the short section to the East covering the Harpole turning and new housing?

*Response - The eastern end will be a 30mph limit, this is covered under a separate Order for Sandy Lane. Please see attached. The consultation for this one is now at public and ends today (reference: P1981).*

2. Why is nothing being done on the section to the West of Nobottle where the Brington and Flore turnings are and which we know in the latter case is an accident hotspot - we have always been told that there is a limit to what can be done to warn traffic of the junction when approaching from Flore but the speed of traffic on the Nobottle road is a factor I believe given lie of the land in both directions? Are any changes pending on that as I know we have had prior discussions on calming measures in those places? Calming traffic in the way proposed may just encourage people to "open up" once out of those restrictions in our section? In summary, I would extend a 50mph limit from the bend to the West of the Flore turning up to the new 40mph limit section approaching Nobottle.

*Response - This point has been raised and agreed to be considered at the next speed limit panel meeting on 12th November.*

3. What happened to the proposal to raise the limit on the East Haddon road from 40 to 50mph? This was recommended and approved I thought over a year ago but nothing has happened? This proposal just seems to highlight that inconsistency and an update/explanation would be helpful.

*Response - We are unable to locate a record of this request, I am therefore unable to comment currently. However, if you have any further information, I will be happy to follow this up.*

*Parish Council Response – This was included in the Parish Council’s objection to Planning Application [2023/5314/FULL Field North East of Kennel & Cattery Hazel Tree House and North of the Brook East Haddon Road Great Brington West Northamptonshire NN7 4JL](#)*

4. Surely it would make sense to extend it to incorporate the Flore crossroads as this seems to be an accident hotspot and would be an ideal opportunity to try and improve the safety there.

*Response - Please refer to point 2 above.*

5. Seems very odd, why stop the 50 at Nobottle Nursery when we have all the housing to be built at the Duston roundabouts just a mile further on.

*Response - Please refer to point 1 above.*

I hope this helps. If I have missed anything or something appears to be incorrect, please let me know and I will be happy to follow it up and provide further clarity.

Kind regards

KIER / WNC Highways
